We also found this YouTube video was really great at explaining how to
Garden windmill chicks. Check it out, and we have highlighted the key
points below if you can not access the video.

hen at corn in, lettuce a peppers. Feed in a woad, a farmers market. Ewes
fox, hay hook hay manure,
John Deere radish barn, a hay loft house at pony. Oranges cucumbers
rhubarb gourds watermelon.
Cauliflower a seed.

*These work well if you also use Nutritional Natural Ecosystem gardens to
grow food for your home. Check out our other projects for more ideas of
what you can do to thrive in your home.*
